

Noga Abecassis (CMBIOY)	22454: Diversity and succession of fungi on dead beech wood in Wijnendalebos.	Annemieke Verbeken	kris vandekerkhove
Jose Antonio Abreu Montero (AXLOCS;CMBIOY)	22415: Analysis of future ecosystem services of floodplains in Flanders	Maurice Hoffmann	Francis Turkelboom
Ruben Algoet (CMBIOY)	22450: Macroalgae-microbiome interactions: testing the holobiont concept in a changing environment	Olivier De Clerck	Anne Willems
Marjon Braem (CMBIOY)	22373: Understanding the molecular networks underlying Caulobacter induced growth promotion of Arabidopsis	Sofie Goormachtig	
Hannah Broeckx (CMBIOY)	22408: The evaluation of agri-environment schemes to increase insect biodiversity	Maurice Hoffmann	Luc De Bruyn
Tim Claerhout (CMBIOY)	22461: Conservation of Magnolias from the Dominican Republic	Lars Chatrou	
Yara De Boe (CMBIOY)	22354: BREEDIT combining breeding with genome editing to improve plant yield	Dirk Inzé	Hilde Nelissen
Ine De Man (CMBIOY)	22471: Pollen evolution in response to drought in wild relatives of the sweet potato (Convolvulaceae)	Lars Chatrou	
Seppe De Mits (CMBIOY)	22476: Seasonal dynamics in carbon sequestration in high Arctic tundra: a meta-omics approach	Elie Verleyen	Wim Vyverman
Matteo De Munck (CMBIOY)	22460: Diversity, DNA barcoding and phylogeography of plant-parasitic nematodes of Banana in East Africa	Wim Bert	
Robin De Plus (CMBIOY)	22355: Studying the role of the anterior olfactory cortex in olfactory curiosity	Bart Braeckman	Sebastian Haesler
Ditte De Waele (CBBIOL;CMBIOY)	22464: Evolution of the musculoskeletal postcranial system in relation with the burrowing performances in amphisbaenians.	Dominique Adriaens	
Marie De Wilde (CMBIOY)	22469: Evolution of structure and function of reptile eggs	Liliana D'Alba Altamirano	Matthew Shawkey
Rik Debeer (CMBIOY)	22421: Carbon flow in the pelagic food webs of contrasting fjord systems in SW Greenland	Koen Sabbe	Lorenz Meire
Lennard Dekeukeleire (CBBIOL;CMBIOY)	22338: Unraveling the effect of a novel virus resistant trait on honey bee health.	Dirk de Graaf	Lina De Smet
Moyra Delafonteyne (CMBIOY)	22382: Testing a dispersal front: do newly founded populations of the digger wasp <i>Bembix rostrata</i> have different traits?	Dries Bonte	
Finlay Demeyer (CMBIOY)	22449: Clarifying the role of BLI-4 isoforms in ADR longevity	Bart Braeckman	Ineke Dhondt
Margje Derde (CBBIOL;CMBIOY)	22303: Vitamins in plant life: The regulatory role of vitamin B9 (folates) and folate binding proteins	Dominique Van Der Straeten	Ratnesh Mishra
Iris Dumolein (CMBIOY)	22490: Fungal diversity in a hyperparasitic system of bats, bat flies and Laboulbeniales (Ascomycota)	Annemieke Verbeken	
Nel D'haenekint (CBBIOL;CMBIOY)	22484: Living in the light during the day or at night? Light preference of <i>Araneus diadematus</i> in urban and rural areas.	Bram Vanthournout	Dries Bonte
Matthieu Gallin (CMBIOY)	22381: : Linking solitary wasp and brood parasite metapopulations	Dries Bonte	
Yahya Ghalayini (CMBIOY)	22456: Does microclimate and spring phenology influence ring-necked parakeet ( <i>Psittacula krameri</i> ) timing of breeding and breeding success?	Diederik Strubbe	

Lisse Goris (CMBIOY)	22379: Make your move: how interactions impact movement rules and ecological feedbacks	Dries Bonte	
Felicia Gruwez (CMBIOY)	22480: The complete botanist: integrating herbarium taxonomy, high-throughput sequencing and phylogenetics of tropical trees	Lars Chatrou	
Thibo Kamoen (CBBIOL;CMBIOY)	22414: Onderzoek naar de relatie tussen verschillende vormen van natuurbeleving en draagvlak voor natuurbehoud bij jongeren	Maurice Hoffmann	
Phaedra Lagaet (CMBIOY)	22491: Revealing the African origin of <i>Lactarius</i>	Annemieke Verbeken	Jorinde Nuytinck
Ward Langerhaert (CMBIOY)	22486: Population genetics and shell colour polymorphism in the introduced land snail <i>Theba pisana</i> (O.F. Müller, 1774)	Frederik Hendrickx	Thierry Backeljau
Ellen Martens (CMBIOY)	22511: Molecular mechanism of bioactive aromatic compounds in plants: cis-cinnamic acid as case study	Bartel Vanholme	
Cyr Mestdagh (CMBIOY)	22380: Gradients of moth abundance along forest edge-to-interior gradients	Dries Bonte	
Tanisha Moons (CMBIOY)	22459: Host range, systematics, and geographical distribution in a host-parasite model system	Wim Bert	
Robbe Paredis (CMBIOY)	22437: Deep time conflicts: tracing an ancient hybridization in tropical trees using phylogenomics	Lars Chatrou	
Fleur Petersen (CMBIOY)	22457: Does intraspecific niche variation affect the performance of predictive models of species invasion risk	Diederik Strubbe	
Fien Ryckaert (CMBIOY)	22417: Effecten op de gezondheid van contact met de natuur	Maurice Hoffmann	Hans Keune
Silke Sercu (CMBIOY)	22482: The evolution of floral scent in tropical rain forest trees	Lars Chatrou	Dominique Van Der Straeten
Robbe Strybol (CBBIOL;CMBIOY)	22436: Patterns and rates of species evolution in tropical rain forests	Lars Chatrou	
Ines Temmerman (CMBIOY)	22452: A search for the perfect match: host specificity as a character in <i>Russula</i> phylogeny	Annemieke Verbeken	
Myrthe Van Brempt (CMBIOY)	22383: The use of cereal winter food plots by the threatened Yellowhammer	Luc Lens	Luc De Bruyn
Antoine Van de Vloet (CMBIOY)	22447: When genomes team up - effects of genome doubling and merging on fitness and gene expression	Olivier De Clerck	Yves Van de Peer
Helena Van den Eynde (CMBIOY)	22440: Microbiome based selection of plant growth promoting rhizobacteria in lettuce	Sofie Goormachtig	
Joris Van Doorne (CBBIOL;CMBIOY)	22423: Climate change effects on germination success of marram grass, a key dune-forming species	Martijn L. Vandegehuchte	Dries Bonte
Bert Van Hecke (CMBIOY)	22467: Change of colour of a house sparrow/pigeon through time	Matthew Shawkey	
Ronald Vandersteene (CMBIOY)	22422: Effects of climate change and insect herbivore communities on the evolution of plant resistance	Martijn L. Vandegehuchte	
Arne Verdonck (CBBIOL;CMBIOY)	22463: Evolution of the musculoskeletal cranial system in relation with the burrowing performances in amphisbaenians.	Dominique Adriaens	
Eline Verhelst (CMBIOY)	22439: Characterization of wild legume-rhizobia combinations from Northeast Thailand: isolate authentication and assessment of nitrogen-fixing efficiency	Anne Willems	Sofie Goormachtig
Jens Zarka (CMBIOY)	22342: Interactions between red wood ants and a facultatively associated isopod	Thomas Parmentier
